EVANSVILLE GREAT
CORN SHOWTo be Held Week of January 22.
Farmers of Hopkins County

HAVE CHANCE FOR STUDY

Evansville's Corn Show and Farmer's Short Course to be held the week of January 22, offers the farmers and growers of Hopkins County the chance they have been waiting for. How to get the maximum crop from the minimum farm, the breeding and judgment of stock, the preparation of crops for market and the fertilizing problems will be dealt with in a way that the tiller of the soil can improve his methods by a few days attendance at a trifling expense.

For the fee of \$1, the student has thrown open to him the advice and instructions gleaned through years of hard work by practical men and experts in their various professions. The ambitious farmer will be there, and each day he will see something new unfolded or some new formula worked out by which his soil can be made to yield greater returns.

A departure in domestic science will be conducted for the benefit of the ladies wherein the economy of household expenses, labor and improvement of health conditions will be the leading topics.

Arrangements have just been completed with the International Harvester Company to produce their exhibit, "The Romance of the Reaper." The moving pictures will show the methods of harvesting grain in all parts of the world and will give an historical resume of harvesting grain from the earliest time down to the present date.

The Stock breeders of Western Kentucky have been talking of stock sales to be held at some point nearer home than Chicago or St. Louis but until now the problem has not been solved. The corn school has planned to put on the largest stock sale that has ever been conducted in this district and make every effort to make the innovation a permanent institution.

The sales will be conducted as follows:
Jan. 23, hogs
Jan. 24, poultry, sheep and horses
Jan. 25, beef cattle
Jan. 26, dairy cattle.

Dulin's
ORANGE SALE
IN FULL BLAST

Miss Kate Whalen, of Earlington, got an orange Wednesday with a \$5 gold piece in it.

Miss Ethel Jackson, of Anton, was the lucky person to get an orange with a \$2.50 gold piece in it.

Mr. G. H. Atkinson, of White Plains, was lucky enough to get two oranges each containing a Silver Dollar.

We have given many orange sales but they never lose interest, because the oranges with money and those without are mixed in perfect fairness to a mathematical scale and this adds a charm as nothing else can.

We have found it the most unique and satisfactory way ever attempted to make a gift to our customers, for the oranges and the money in them is a gift pure and simple from our point of view, for we believe that we are giving you as good and better merchandise as cheap and cheaper than you can buy it elsewhere and we want you to feel this way about it, too. We ask your patronage on this basis only.

We do not want anyone to buy an article of us if they feel they could buy it a penny cheaper elsewhere then you can feel as we feel that the oranges and the money they may contain are a gift.

We observe the following people Wednesday and Thursday who were lucky enough to find one dollar or more in their oranges. This does not embrace all by any means, as many did not make known how much they drew and many others carried their oranges home before opening them.

Miss Kate Whalen, Earlington, \$5.70.

MILTON H. SMITH SAYS
L. & N. WAS HELD-UP

Work Done Through The Manufacturers' Railway

ILLEGAL PASSES ARE ALLEGED

St. Louis, Mo., Jan. 17.—Milton H. Smith, president of the Louisville & Nashville railroad, today testified before an Interstate Commerce Commission examiner that the Anheuser-Busch Brewing Association was receiving rebates from the railroads entering St. Louis through the medium of the Manufacturers' railway, a Busch interest. The hearing here is on the application of the Manufacturers' Railway and recognition as a common carrier.

Mr. Smith also accused Adolphus Busch, August A. Busch and other officers of the railway company of accepting passes in violation of the law. He said his company was compelled to allow a rebate of \$4.50 a car for every one his road received from the brewing Association delivered by the Manufacturers' Railway.

George F. Moore, president of the Manufacturers' Railway, who followed Mr. Smith on the stand, said the charges were ridiculous and that the railway and the brewing associations were separate concerns.

Wouldn't You

Wouldn't you like to be a leader instead of a follower? Wouldn't you like to be a "live wire" in business, originating ideas and methods that will cause big business men to bid for your services? Wouldn't you like to get more pay?

You can have all this experience—you can get the bigger pay, you can successfully manage a business of your own—if you will take the necessary training, and you can get the training either at college or by mail. The first step is to write JNO. F. DRAUGHON, President, Nashville, Tenn., for prices on lessons BY MAIL; or for catalogue on courses at COLLEGE, address Draughon's Practical Business College, Nashville, Tenn., Paducah, Ky., Evansville, Ind., Washington, D. C.

A Hero in a Lighthouse

For years J. S. Donahue, So. Haven, Mich., a civil war captain, as a lighthouse keeper, averted awful wrecks, but a queer fact is, he might have been a wreck himself, if Electric Bitters had not prevented. "They cured me of kidney trouble and chills," he writes, "after I had taken other so called cures for years without benefit and they also improved my sight. Now, at seventy, I am feeling fine—no dyspepsia, indigestion, all stomach, liver and kidney troubles, they're without equal. Try them. Only 50c at all druggists."

School Notes

A "craze for education" has struck Powan county, which is one of the backward "feud" counties of Ky. Almost everyone regardless of age seems to be going to school. The oldest pupil is 88; the are several past 70, and many past 60.

The idea might well be taken up here and elsewhere. Too many people have a notion that education must stop when one has graduated from the grammar school, the high school or at any rate from college. There is always plenty for even the wisest to learn, and education need never end as long as life lasts, as best schools and colleges can only give a good start.

During the recent cold weather, our faithful engineer, Mr. Scott Lamb, has worked diligently trying to make the building comfortable, and succeeded admirably as the rooms with one exception were always comfortable.

The pupils in Second grade have been taking advantage of the "indoor" recesses by doing more Physical culture than usual. They enjoy the exercise, and find it very beneficial.

FOUR KILLED

12 Injured in Collision of L. & N. and C. & O. Trains

WRECK OCCURRED AT LONG RUN, NEAR LOUISVILLE

Tuesday morning at 5:30 o'clock an in-bound L. & N. passenger train collided, head-on, with a C. & O. out-bound extra at Long Run, 18 miles east of Louisville.

Both engines exploded and parts of the wreckage fell on the coaches. The two engineers and firemen were killed. The C. & O. conductor and two brakemen and nine passengers were injured. The surgeons of the wrecking crew were hurriedly summoned and took the dead and injured to Long Run on interurban cars.

The Danger of La Grippe

Is its fatal tendency to pneumonia. To cure your la grippe coughs take Foleys Honey and Tar Compound. R. E. Fisher, Washington, Kan., says: "I was troubled with a severe attack of la grippe and nothing I used did me any good and was threatened with pneumonia. A friend advised me to use Foleys Honey and Tar Compound and I got some at once. I was relieved from the very first. By the time I had taken three bottles my la grippe was gone. I believe Foleys Honey and Tar Compound to be the best medicine I ever used and always keep a bottle with me."

A Sad Ending

Walter Roberts, a young man of Memphis, committed suicide by taking strychnine. He was lured to the city by the bright lights and unwholesome gaiety, which wrecked his life. He was not able to endure the ill he had brought upon himself, so ended his existence.

The following note was left: "When this you find you may know that it is just one more life given up for the gay part of the world."

I have had my share of it, and now that I want to do better I find it too late. To those who have been my friends I wish to thank them. But I have wrecked my own life and a number of others.

To the boy and girl at home I beg of you to stay there; all are not roses that bloom in a city.

To the world and friends I say goodbye.

Please bury me in the potter's field without any ceremony and in the clothes that I have."

About five years ago I wrote to you I had been a terrible sufferer from kidney and bladder troubles, and that my physician informed me that my left kidney was in such condition that there was no hope for my recovery I was advised to try your Swamp-Root as a last resort, and after taking four fifty-cent size bottles, I passed a gravel stone which weighed two grains. I afterwards forwarded you this gravel stone. Have had no return of any trouble since and cannot say too much in much in favor of your wonderful preparation, Swamp-Root, which cures, after physicians fail.
